Principal

Beau Campbell,
School Resource Officer

October 9, 2015

Parents,

It was brought to our attention yesterday that several students had downloaded the Apple store application called "After School." This free application (app) can be downloaded to any I-phone and allows users to post comments anonymously.

The district is reviewing methods for blocking these types of mobile apps on school devices, however, students will still be able to access these apps on their personal devices that aren't managed by the school district. Parents need to know that "After School" uses kids' Facebook profiles to verify they're students at a specific high school before granting access to the school's page within the app. From there, teens see images and posts created anonymously by other students or can create anonymous posts themselves.

Teens 13 and up can register, but to see posts tagged with "sex," "drugs, and "profanity," teens must verify they're over 17 by scanning the code on their ID cards. This app has been banned by other school districts across the country.

We encourage parents to discuss this application with your child and encourage them to remove it from their phone. For more information please visit:

itunes.apple.com/us/app/after-school-funny-anonymous/id918396645?mt=8

Thank you.
